

## How to Trace A cell Phone For Sizing

Trace your phone in order to estimate the measurements. Please lay your phone as depicted in the picture and trace an outline. Measure and write actual measurements on the trace.

To estimate the width place your phone on its sites and trace along both sides as depicted in the picture. Measure and write actual measurements on the trace.

\*\* After performing the traces of your phone you can either scan (**PDF Format**) and email to [rob@rmbcl.com](mailto:rob@rmbcl.com) or drop it in the mail to me at 966 Bay Dr. Oakboro, NC 28129.

\*\* I understand this is slightly inconvenient however this is essential to making sure you get the item you want. This will avoid most mistakes in sizing.
