

## How To Trace Your Gun For Sizing

Trace your gun in order to estimate the measurements. Please lay your gun as depicted in the picture and trace an outline. Measure and write actual measurements on the trace.

To estimate the width place your gun on its sites and trace along both sides of the gun as depicted in the picture. Measure and write actual measurements on the trace.

\*\* After performing the traces of your gun you can either scan (**PDF format**) and email to [rob@rmbcl.com](mailto:rob@rmbcl.com) or drop it in the mail to me at 966 Bay Dr. Oakboro, NC 28129.

\*\* I understand this is slightly inconvenient however this is essential to making sure you get the holster you want. This will avoid most mistakes in sizing your holster.
